Christopher J. Fiscus, PhD

Bioinformatics Scientist

Irvine, California

**** 1-209-613-9384

in fiscuscj

C cjfiscus

Summary

Research scientist with extensive experience in bioinformatics and computational biology, specializing in analysis of next-generation sequencing data using high-performance computing systems. Proven track record of driving scientific research projects as part of a cross-functional team. Expert communicator with ability to translate technical information for diverse stakeholders.

Professional Experience

Postdoctoral Researcher

09/2022 - Present Irvine, CA

University of California, Irvine

- Leading computational biology-based research projects studying wild grape genomics
- Team lead for Pan-Structural Variation Hackathon in the Cloud (hosted by Baylor College of Medicine)
- Organized Southern California Evolutionary Genetics and Genomics Meeting (~100 attendees)

Graduate Student Researcher

University of California, Riverside

09/2016 - 09/2022

Riverside, CA

- Led 3 scientific research projects resulting in 3 publications and 8 conference presentations (2 talks, 6 posters)
- Demonstrated leadership and project management skills by individually mentoring 5 direct reports
- Taught discussion sections for 4 college-level courses in genomics and bioinformatics (3X) and genetics (1X)

Quality Control Laboratory Technician

Charles Krug Winery

12/2015 - 08/2016

St. Helena, CA

- Performed enology laboratory tests throughout production to ensure legal compliance and quality standards
- Developed 5 SOPs for quality control laboratory assays
- Identified, troubleshot, and addressed product quality issues in collaboration with production team

Harvest Laboratory Technician

08/2015 - 12/2015

Charles Krug Winery (via Apex Life Sciences)

St. Helena, CA

- Conducted enology laboratory analyses and sensory evaluations supporting all stages of the winemaking process
- Maintained strict adherence to SOPs and contributed to quality assurance initiatives
- Managed sample collection, bench trials, and blending experiments to optimize product characteristics

Skills

- General data analysis & visualization, problem-solving, statistics, statistical programming
- Programming R, bash, python
- Bioinformatics NGS data analysis, SNP calling, GWAS, bwa, GATK, samtools/bcftools, bedtools, plink
- Computing Unix command line, SLURM (HPC), conda, git (version control), snakemake (workflow)

Education

Ph.D. Genetics, Genomics and Bioinformatics

2022

University of California, Riverside

B.S. Biotechnology

2015

University of California, Davis

Certifications

AWS Cloud Technical Essentials

11/2023

Coursera

Publications © 0000-0001-9569-1809
